

# S2 COURSE CHOICE

## Course Choice Process:

Over the next couple of weeks, your young person will have a one-to-one meeting with their Guidance Teacher. During this time, they will work together to create a personalised course choice plan that is tailored to your young person's needs and aspirations. This process takes into account their chosen career pathway, recommendations from staff, and their prior attainment to ensure the best possible fit. Our aim is to support every learner in making informed choices that set them up for success – we call this approach 'Best Coursing for Success.'

Once this is complete, your young person will return with their choices for you to discuss and review with them. Here you will have a chance to note any changes that you feel would be better suited to your young person.

## Available Options:

Before you make any decisions on further courses to study, take an in-depth look at our courses, via the 'Curriculum Areas' bubbles, on the front page of our school website - to access, you can scan this QR code.

**All learners will study** English and Maths/Application of Maths, in S3 and S4.

From this list Learners will choose an **additional 5** subjects in order of preference and **2 reserve** subjects.

## Further information

If you require any further support or advice with choosing your options, please contact the appropriate Guidance Teacher or Mr Jackson (DHT) - adam.jackson@fife.gov.uk

Each year, we endeavour to meet the choices of all learners. However, in some instances, owing to insufficient numbers or staffing, it is not always possible to run all courses.

|                             |                                 |
|-----------------------------|---------------------------------|
| English                     | English, Literacy and Languages |
| Spanish                     | English, Literacy and Languages |
| Art & Design                | Expressive Arts                 |
| Drama                       | Expressive Arts                 |
| Music                       | Expressive Arts                 |
| Music Technology            | Expressive Arts                 |
| Childcare                   | Health and Wellbeing            |
| Fashion & Textiles          | Health and Wellbeing            |
| Physical Education          | Health and Wellbeing            |
| Practical Cookery           | Health and Wellbeing            |
| Applications of Mathematics | Mathematics                     |
| Mathematics                 | Mathematics                     |
